

CLOTH FACE MASK DISTRIBUTION PROCESS

Cloth face masks will be available for GRIC tribal members and their household members

- Recipients must live within the GRIC boundaries/reservation; OR
- Must be a GRIC tribal member if receiving a mask at an urban distribution site

STEP 1

Office of Emergency Management (OEM):

- Receives Cloth face masks from vendor
- Receives Face Mask Q&A handout from Gila River Health Care (GRHC)
- Notifies Tribal Health Department for pick up

STEP 2

Tribal Health Department (THD):

- Retrieves cloth face masks and handout from OEM
- Notifies Community Services Department (CSD) to identify a disbursement start date for the District Service Centers
- Notifies GRIC Urban Members Association (GRICUMA) contact to identify a disbursement date for the urban members; JIC (CPAO and GRHC PIO) develop flyer for disbursement date
- THD packages masks and handouts per District and Urban areas per Table 1 – Disbursement counts
 - Remaining masks will be kept at OEM for additional resources when needed
- THD delivers masks and handouts to each District Service Center and Urban areas

<i>Table 1</i>	<i>Disbursement</i>

PREVENT THE SPREAD OF COVID-19

FACEMASK Q & A

Why should I wear a facemask?

A: This can help keep you and your loved ones safer and slow the spread of COVID-19.

When should I wear a facemask?

A: When you go out in public, especially in places like grocery stores, the post office, or to pick up a prescription at a pharmacy.

Does wearing a mask mean it is safe for me to be closer than 6 feet to other people in the Community.

A: NO! Masks have been shown to decrease the distance the virus can travel person to person but is not a substitute for proper physical distancing.

What should the mask be made of?

A: 100% cotton or denim material is easy to get and make. GRIC and GRHC are purchasing and making these masks for the Community members.

Is there someone in my family who should NOT wear a mask?

A: Children under 2 years old and people who cannot remove the mask themselves or have trouble breathing should not wear masks.

Is there a right or wrong way to wear a mask, how should I wear it?

A: Yes, the mask should fit snugly but comfortably against the outside of the face. It should cover the nose, around the sides of the face and under the chin. Think of it as creating a good seal around this area so that little to no air comes in around the edges of the mask.

If there are germs collecting on the mask, how do I take it off and what do I do with it after I use it?

A: Just be careful not to touch your eyes, nose, or mouth when taking off the mask and put it in a regular washing machine. **WASH YOUR HANDS** after removing it.
